German Conference on Bioinformatics 2003

12<sup>th</sup> - 14<sup>th</sup> October 2003

GSF – National Research Center

for Environment and Health, Neuherberg

TUM – Technische Universität München, Garching

Second Announcement

## Welcome to GCB 03

The GCB 2003 conference continues the long tradition of a national bioinformatics conference where both German and international bioinformaticians meet.

The Munich region has gained a strong momentum in bioinformatics recently as have other established and emerging centers in Germany. A lively bioinformatics scene is

developing. A special session will therefore report on the activities of the German Bioinformatics Centers.

The conference will take place on the GSF campus in Neuherberg and on the TU München campus in Garching. Both research centers are located just outside of Munich city.
